Copy of proceedings is communicated to the Director of Industries and Commerce for necessary action.

Copy of para 6 of the Record Note of the Silk Conference held at Bangalore on 16-10-1944 between the representatives of the Government of India and of the Government of Madras.

6. Installation of re-reeling machinery -- It was decided after discussion that re-reeling would improve the quality of silk and consequently its value at a comparatively low cost. Mr. Peychaud estimated that the capital expenditure in connection with the Government Silk Factory would be Rs. 25,000 for the machinery and Rs. 8000 for the buildings at the outside. M/S Targett and Chanda agreed on behalf of the Supply department to meet this expenditure. It was recommended that the Madras Government might incur similar expenditure on the Kollegal Silk Filatures. It was gathered from Mr. Peychaud that labour costs would actually come down since a part of the labour now employed to open out and clean the hanks could do the re-reeling. It was also resolved that two men should be sent by the Madras Govt. to Calcutta for being trained in the testing of silk.

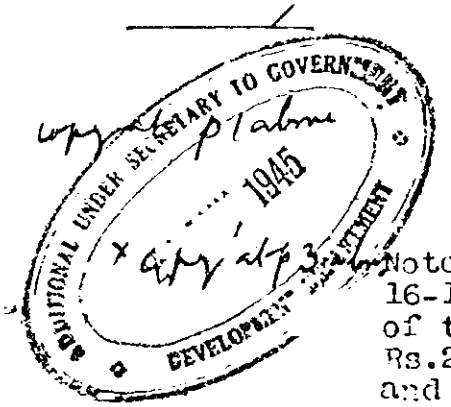
Sir,



Sub: Government Silk Filature and Kollegal Silk Filature, Kollegal Installation of ~~xxxxxxx~~ reeeling machinery - sanction regarding.

Ref: Government Endorsement No.5347-9.D/44-4, Development dated 16-11-1944;

I invite a reference to para 6 of the Record Notes of the quarterly meeting held at Bangalore on 16-10-1944 wherein the representatives agreed on behalf of the Supply Department to meet the expenditure of Rs.25,000/- for the installation of reeeling machinery and Rs.8,000/- for the buildings in the Government Silk Filature, as estimated by Mr. Peychaud and also recommended that the Madras Government might incur similar expenditure on the Kollegal Silk Filature, Kollegal. The Manager, Kollegal Silk Filature who was asked to submit definite proposals in regard to the installation of re-reeling machinery at the Kollegal Silk Filature, reports that the necessary machinery can be installed without constructing additional buildings to house them as they could be accommodated in the existing silk cleaning and silk store rooms and in a part of the cocoon godowns. It is proposed to have 100 reels in two rows of 50 each, each reel capable of accommodating 4 hanks to re-reel all the hanks that come of the 150 basins in a day. It is possible to get various parts of the machinery from some of the firms dealing in silk machinery in India, at competitive prices and erect the machinery in about three months' time, at a cost of not exceeding Rs.10,000/- vide estimate attached.

I request that Government may be pleased to accord sanction to incurring of an expenditure not exceeding Rs.25,000/- for the re-reeling machinery and Rs.8,000/- for the buildings to house them at the Government Silk Filature and also sanction for incurring an expenditure

Please see the letter from the D. I & C at pp. 5-6 ante.

The question of introducing re-reeling machinery at the Govt. Silk Filatures, Kollegal was considered in detail in the papers at (F) (Lodged 26187D/43 dt 9-6-44) and in June 44, the matter was dropped on the advice of the D. I & C. The question was opened again at the Silk Conference held at Bangalore on 16-10-44. The representatives of the Govt. of India agreed to bear Rs 26,000 for the cost of the machinery and Rs 8,000 for buildings to house the machinery. The estimate for

The expenditure may perhaps be sanctioned now — In time have agreed. The fact that no estimates or plans have yet been received is however for consideration. There are grave possibility that fixed

estimates may be higher than the original sum agreed to owing to high prevailing costs of labour, material etc – this has happened before. For order.
